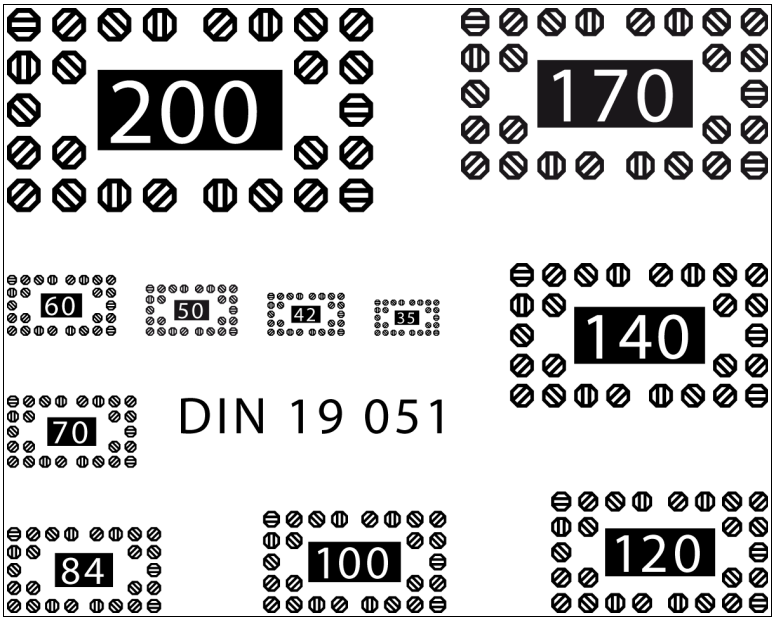
ISO 446 TEST PATTERN NO. 1 (DIN 19051)

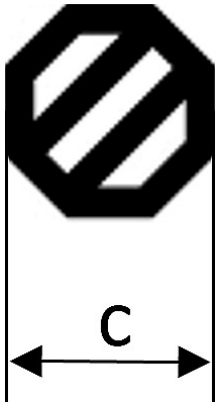
REFLECTIVE



The chart is designed to check the readability of the reproductions of documents.

In pattern number 84 the direction of the two lines inside the octagon must be recognized without problems for 7 out of 8 symbols.

The test chart TE143 is designed to check the readability of the reproductions of documents via visual image quality analysis.

The ISO 446 (DIN 19051) pattern No. 1 obtains an index in each block that shows the character width c in 1/100 mm. The direction of the line pair inside the octagon must be recognized without problems for seven out of eight symbols.


The provided sheet contains 20 patterns on A4 format.
