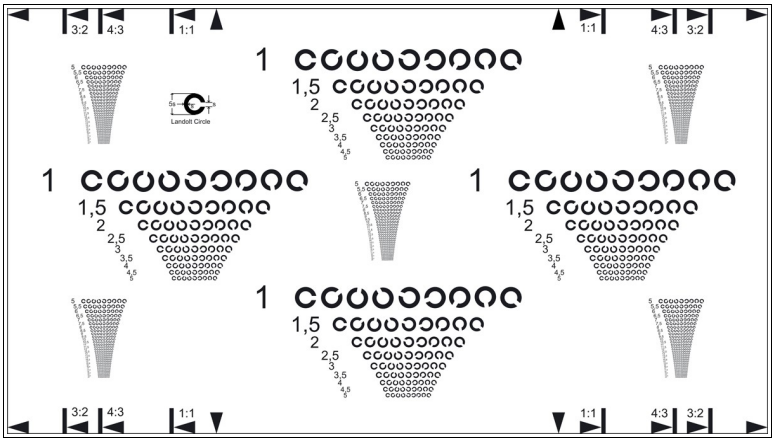
LANDOLT CIRCLE RESOLUTION TEST CHART

TRANSPARENT



The TE245 is designed to make a visual resolution analysis of digital cameras.

It contains Landolt circles in different sizes from 100 to 2,000 s per picture height. The opening is arranged in vertical, horizontal and diagonal directions.

The aspect ratio of the test chart is 16:9 with integrated markers for 1:1, 4:3 and 3:2 formats.
